**Senator Anyim Pius Anyim**

Abuja,  
Nigeria

19<sup>th</sup> February, 2022

## **HEARTY CONGRATULATIONS ON YOUR 61<sup>st</sup> BIRTHDAY**

Birthdays remind us of our journey here on earth and remains a joyful occasion to offer thanks to God Almighty for the life he has bestowed upon his people and to be celebrated by one's family and well-wishers. I am particularly happy on this occasion of your 61<sup>st</sup> birthday. Indeed, it is a joyful season for you and it shall remain so.

Through the course of your sublime life, you have contributed immensely in the development of people around you, your home state, Ebonyi, the south east geopolitical zone and of course, our great country, Nigeria, in several capacities in which you have had the blessings of God to serve.

My dear brother and ebullient distinguished senator, since our paths crossed in 1984, it has been a fast friendship underscored and denoted by mutual understanding and support. Your unassuming nature, dexterity, adoration for the things of God, love for your family and those who've beat their paths to your door have been your ethos since several years prior. Even so, you are not one to remain silent in the face of multidimensional challenges. Essentially you have risen, then and now, to confront and completely surmount issues.

The hand of God continues to remain upon your life as has been seen in no mean achievements that you have attained in this earthly plane and for greater heights which await you. Surely, you shall continue to enjoy great health, sustained support from all corners and everything good will attend to you.

Again, I offer my congratulations to you, Distinguished Senator, on your 61<sup>st</sup> birthday. My prayer remains that your determined efforts to achieve collective development for our country will remain your focus even as the love of God envelopes you.

Happy Birthday, Sir!

**Professor Gregory I. Ibe**

Ph.D., OFR, Enyi Abia.

Founder & Chancellor, Gregory University, Uturu, Abia State
